### REGULATION 1952 (M. 1)

The following regulation is made pursuant to section 44 of the "Municipal Superannuation Act." Pursuant to section 28 of the "Municipal Superannuation Act," in order to determine the amount that shall be recoverable on or before the 31st day of March in each year from the employers to whom this Act applies, the following shall determine the method of calculation:—

- (a) The total of all salaries and expenses necessarily incurred by the Superannuation Branch and chargeable to Consolidated Revenue in the applicable fiscal year shall be estimated by the Commissioner during January of that year. From the said total shall be deducted any expenditure charged to Consolidated Revenue incurred during that year in respect of service peculiar to any of the Superannuation or Pension Funds administered by the said Superannuation Branch.
- (b) The amount recoverable from the employers to whom the "Municipal Superannuation Act" applies shall be determined by calculating the proportion of the cost of the administration of the Superannuation Branch pursuant to paragraph (a) of this regulation, which the number of contributors and pensioners under the "Municipal Superannuation Act" on December 31st bears to the total number of contributors and pensioners under all the superannuation and pension plans administered by the Superannuation Branch on the said date.

To the amount ascertained pursuant to this paragraph shall be added any expenditure charged to Consolidated Revenue incurred during the applicable year in respect of service peculiar to the administration of the Municipal Superannuation Fund.

- (c) The amount determined pursuant to paragraph (b) of this regulation shall be apportioned amongst the individual employers to whom this Act applies in the proportion which the number of contributors and pensioners in each individual employer's account bears to the total number of contributors and pensioners in the accounts of all the employers to whom the "Municipal Superannuation Act" applies.

## RAILWAY DEPARTMENT

### "RAILWAY ACT"

PURSUANT to the provisions of section 7 of the "Railway Act," being chapter 285 of the "Revised Statutes of British Columbia, 1948," His Honour the Lieutenant-Governor in Council has been pleased to approve the following certificate, numbered 793, signed and sealed on the 29th day of January, 1952:—

Certificate No. 793.

### "RAILWAY ACT"

(Chapter 285, R.S.B.C. 1948)

In the matter of rolling-stock and ever-increasing change from steam-locomotives to diesel-electric locomotives, it is deemed necessary to amend Rules and Regulations, Rule 62, Part 1, Location, Construction, and Clearances, by authority of the provisions of section 289 of the "Railway Act," being chapter 285, R.S.B.C. 1948.

Whereas the resultant stresses from steam-locomotives on rails and structures can be reasonably calculated due to over a century of experience in operation, the effects and stresses set up in rails and structures by the operation of diesel-electric locomotives are not yet fully known, and railways constructed and maintained for steam motive power are at present the proving-grounds for diesel-electrics; consequently, it is not intended to make a final rule but to treat each locomotive on its own merits, bearing in mind that properly controlled speed is a known safety factor.

And whereas diesel-electric locomotives have a different wheel arrangement than steam-locomotives, and as there is no dynamic-augment or unbalance due to counterbalances and rods as used on steam-locomotives, I have approved an amendment whereby heavier axle-loads on diesel-electric locomotives than on conventional steam-locomotives may be considered and approved. A further reason for this change is that diesel-electric locomotives have an even turning moment, whereas steam-locomotives have a fluctuating turning moment which causes impact on the rail; consequently, the load impact resulting from diesel-electric locomotives is considered less than that resulting from steam-locomotives of the same weight.

In conformity with the above, I, Henry Robson Bowman, Minister of Railways of the Province of British Columbia, hereby certify that, pursuant to section 289 of the "Railway Act," I have amended the Rules and Regulations, Part 1, as follows:—

Amend Rule 62, Part 1, by striking out the entire paragraph and substituting the following:—

"(a) *Rails*.—Rails shall be of sufficient weight to carry the equipment. Broken rails must be replaced immediately.

"(b) *Locomotives*.—Where steam or diesel-electric locomotives are used or where motive power other than steam is used, the wheel or axle loadings of such locomotives, motive power, or rolling-stock on any portion, section, or subdivision of a railway shall be approved for operation or movement after due consideration has been given to the following, and the company has made application for approval:—

"(i) Weight and section of rail with which track is laid:

"(ii) Physical properties and condition of rail:

"(iii) Road-bed and type of ballast:

"(iv) Tie-spacing and condition of ties, and whether or not tie-plates are used:

- “(v) Speed-limit which is subject to approval by the Minister:
- “(vi) Type of locomotives and whether steam, diesel-electric, or otherwise:
- “(vii) Type of trucks, wheel arrangement, and individual axle-loads:
- “(viii) Type of service; common-carrier passenger service or freight only, logging or industrial railway, and whether main line, siding, or branch line.

“(c) *Speed-recorders*.—On common-carrier railways where steel rails lighter than 85 pounds per yard are used, and where passenger-trains are operating over any portion of the same railway so constructed, all locomotives other than steam operating in any type of road service over such portions of railway shall be equipped and maintained with speed tape recorders while so operating and all record tapes shall be filed in the office of the company for perusal by an Inspecting Engineer upon demand; and should conditions warrant, the Minister may order speed tape recorders installed and maintained on any type of locomotive used in any type of service on any railway, but the responsibility for observance of speed restrictions must remain with the railway company.”

In witness whereof I have hereunto set my hand and seal this twenty-ninth day of January, in the year of our Lord one thousand nine hundred and fifty-two.
